DETAILED ACTION***Reasons for Allowance***

Claims 1-11 are allowed. A reasonable search of the prior art of record failed to reveal the limitations as set forth in claim 1. Sherman et al. (6,407,195 B2), as pointed out by applicant, teaches a moisture curable composition, and the use of a metal ion complex as a moisture curable catalyst. Therefore, the catalyst of Sherman et al. would not meet the instantly claimed limitation of a "metal ion is only released from the bond to the complex former under the conditions of heating or drying of the adhesive" as instantly claimed.
